DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of group I in the reply filed on June 22, 2004 is acknowledged. The traversal is on the ground(s) that the product of group II is unique to the method of group I. This is not found persuasive because the product of group II can be made by another and materially different process, for instance with pressurized air.

2. Claims 1-7, 10-11, 27, 30-34, 82, 92-94, and 101 are generic to a plurality of disclosed patentably distinct species comprising species I consisting of claims 8, 28, and 102; and species II consisting of claims 9, 29, and 32. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Claims 1-7, 10-11, 27, 30-34, 82, 92-94, and 101 are generic to a plurality of disclosed patentably distinct species comprising species I consisting of claims 12, 35, and 95; species II consisting of claims 13, 36, and 96; and species III consisting of

Art Unit: 1761

claims 14-20, 37-42, 83-88, and 97-100. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
